This does not include recoupment of DY4-5 payments that may have occurred in DY6 due to allowable carryforward.

Do Not Withdraw from DSRIP

Section 4: Performing Provider Overview

Performing Provider Description: **We are a 25 bed critical access hospital located in Karnes County, Texas. For DSRIP purposes and reporting, we will mainly be dealing with data reported with our ED and patients transferred out to a higher level of care.**

Overall DSRIP Goals: **Our goals for the DSRIP project is to take the baselines that we report for the initial demonstration year, and improve on those over the years of the waiver renewal. If we can, Im certain that our patients will benefit from the increased quality.**

Alignment with regional community needs assessment: **This aligns with our community needs assessment because many patients with chronic diseases identified in the assessment, end up in our ED, ad many fall into the low-income/uninsured category.**

<input checked="" type="checkbox"/> Low-income	<input checked="" type="checkbox"/> Self-Pay	<input checked="" type="checkbox"/> Uninsured	<input type="checkbox"/> Other (please explain below)	

MLIU PPP Goal for each DY (DY7 and DY8):	5,506
Average Total PPP	9,577
MLIU percentage of Total PPP	57.49%

*The MLIU percentage is for informational purposes and will help HHSC determine allowable MLIU PPP variation.

Would you like the MLIU PPP Goal to be based on DY5 or DY6 only (as opposed to the average)?	Yes - DY6 Only
DY6 MLIU PPP	4,355
DY6 Total PPP	10,001

Please provide a reason for requesting a different MLIU PPP Goal.

When we pull this data from our system, the patient visits are pulled from A/R files. So some of the DY5 visit payors show as self pay when originally the patient had some form of insurance. The system must purge some of that A/R-Payor info after a certain amount of time. The DY6 visit data that we pulled is current enough that it does not have the purging issue, and we believe that the DY6 data is much more accurate and is a better reflection of our true MLIU percentage.

Attributed Population for Hospital
 For Hospital organizations and Physician Practices, the DSRIP attributed population includes individuals from the DSRIP system defined in Category B that meet at least one of the criteria below. Individuals do not need to meet all or multiple criteria to be included.

a. Medicaid beneficiary attributed to the Performing Provider during the measurement period as determined by assignment to a primary care provider (PCP), medical home, or clinic in the performing providers DSRIP defined system OR

b. Individuals enrolled in a local coverage program (for example, a county-based indigent care program) assigned to a PCP, medical home, or clinic in the performing providers DSRIP defined system OR

c. One preventive service provided during the measurement period (Includes value sets of visit type codes for annual wellness visit, preventive care services - initial office visit, preventive care services - established office visit, preventive care individual counseling) OR

d. One ambulatory encounter during the measurement year and one ambulatory encounter during the year prior to the measurement year OR

e. Two ambulatory encounters during the measurement year OR

f. Other populations managed with chronic disease in specialty care clinics in the performing providers DSRIP defined system

g. One emergency department visit during the measurement year OR

h. One admission for inpatient or observation status during the measurement year OR

i. One prenatal or postnatal visit during the measurement year OR

j. One delivery during the measurement year OR

k. One dental encounter during the measurement year OR

l. Enrolled in a palliative care or hospice program during the measurement year

Please describe any other attributed population (optional).

Please describe your rationale for selecting this Measure Bundle, and describe the primary system components (clinics, facilities) that will be used to report on and drive improvement in this Measure Bundle.

As a rural facility, there are not many bundles that we could choose. We do not run a clinic, so the rural preventative care bundle won't work. We have confirmed that we can pull the needed data for the Rural Emergency care bundle from our system.

Section 1: Measure Exemption Requests and Measure Setting System Components

In order to be eligible for payment for a measure's reporting milestone, the Performing Provider must report its performance on the all-payer, Medicaid-only, and LIU-only payer types. Performing Providers may request to be exempted from reporting a measure's performance on the Medicaid-only payer type or the LIU-only payer type with good cause, such as data limitations. Note that reporting a measure's all-payer performance is still required to be eligible for payment for a measure's reporting milestone.

Requesting HCAHPS exemption - my organization does not report HCAHPS as part of the Medicare Inpatient Prospective Payment System due to low volume or other exempt status	Yes	

Rationale for requesting HCAHPS exemption:
 As a critical access hospital, we are not required to report HCAHPA to CMS due to low volume.

Alternative hospital patient satisfaction survey used:
 Press Ganey

Description of alternative survey:
 Even though we do not report HCAHPS to CMS, we have engaged Press Ganey to handle customer service surveys for us. They call our patients and question them about the service of our staff, wait times/timeliness, communication, etc. They then take that data and compile reports so that we can see where improvements need to be made within our facility.

Section 2: Verification

Please indicate below that you understand that Category D reporting requires qualitative reporting and data will be provided by HHSC as indicated in the Measure Bundle Protocol.
